Singing.

Arnold Onchere Kimori

Undergraduate Mechanical Engineering Student

I am an undergraduate Mechanical Engineering student passionate about production, machine operation and innovative design. The creation and development of various products through the operation of various machinery to lower inefficiencies

Experience

2022

Dedan Kimathi University of Technology Nyeri, Kenya

Attachment

Design of various projects using various soft wares by gathering information and analysis of best methods of production of design project to be created.

Review design drawings and materials required for design construction

Assist in the production of design project with fellow attachees through the operation of various machinery and tools.

Connection of various wiring systems both single phase and 3-phase for home and industrial through conduits and trunks.

Prepare daily reports of industrial activities done each day

Cooperation and effective communication with fellow team members and provide technical support

Provide technical assistance on site for efficiency in engineering development

KENYA POWER & LIGHTING CO.

Arc & gas Welding and fabrication

Automotive assembly and disassembly particularly engine operation

Panel beating and spray painting

Provide technical assistance on site for efficiency in engineering development

Prepare daily reports of industrial activities done each day

Education

2020-2024

Bachelor of Science Mechanical Engineering

Dedan Kimathi University Of Technology

2016-2019

KENYA CERTIFICATE OF SECONDARY EDUCATION

Kisii High

Skills

- Design proficiency;
SOLIDWORKS,INVENTOR,AutoCAD
- Arc welding
- CNC intellitek benchmill
programming and operating
- Lathe operation
- Planning and organizing
- Time management
- Team player

Language

English

Kiswahili
